(Filed April 13, 2006)

**SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) INITIAL PROGRESS
REPORT ON ENERGY EFFICIENCY THIRD PARTY PROGRAMS AND
PARTNERSHIPS**

The Assigned Commissioner's Ruling (ACR) dated July 7, 2006, requested the investor-owned utilities (IOUs) to submit progress reports on their third party and government partnership energy efficiency programs. The July 7, 2006 ACR directs Southern California Edison (SCE), and other IOUs, to keep the California Public Utilities Commission (Commission) apprised of the progress towards implementation of the 2006 energy efficiency third party programs and partnerships.

Specifically, the ACR requested that the IOUs provide an initial progress report 15 days after the issuance of the ACR documenting the dates when contracts are signed and programs rolled out. In response, SCE is providing, in Attachment A hereto, a detailed status of each partnership as well as each third party program selected as part of SCE's 2006 competitive solicitation. Attachment A shows the detailed status on what point in the contracting continuum each program resides. To date, SCE has completed negotiations with each of its third party program implementers and has either signed or sent the final agreements to 37 out of the 41

program implementers. In addition, SCE has either signed or sent out final agreements¹ associated with 11 of the 17 partnerships. SCE is confident that the remaining partnership agreements will be finalized and provided to the partners by August 8, 2006 (30 days after the ACR issuance). As directed in the ACR, SCE will also provide monthly updates to this progress report to the Commission on a monthly basis through the end of 2006.

Additionally, the ACR requires SCE to provide an explanation on how SCE will meet their energy savings goals while allowing its partners to fully implement the programs. Overall, SCE is actively working with each program implementer and partner to ensure that each program and partnership meets its cumulative energy savings goal over the program cycle. Each agreement includes specific plans that will allow sufficient time for these programs to achieve their cumulative energy savings goals. Furthermore, as part of SCE's compliance advice filing, dated January 6, 2006, SCE included energy savings projections that factored in program ramp-up that includes the time to enter into agreements with third parties and partners. Thus, SCE expected these programs and partnerships would be implemented during mid-2006.²

/

/

/

/

/

¹ In some cases a master agreement or a memorandum of understanding was executed to address some of the partners' unique issues.

² The ramp-up timeframe was extended when the Commission approval of SCE 2006-8 energy efficiency advice filing was issued in April 2006 and not in February 2006 as expected by SCE.

In sum, SCE continues to work collaboratively with its partners and third party providers in order to begin full implementation of the remaining programs and partnerships during 2006 which will allow SCE and its partners to achieve the aggressive energy savings goals set forth by the Commission over the 2006-8 program cycle.

Respectfully submitted,

MICHAEL D. MONTOYA
LARRY R. COPE
